

Overview of TEPCO FP/MHPS O&M Solutions Service

TEPCO

TEPCO Fuel & Power

World-leading power generation operator with expertise in O&M

MHPS

World-leading plant manufacturer With expertise in design, manufacture, construction and after-sales service

Data monitoring & Analyzing Center (DAC)

Remote monitoring

Improve fault detection model

IoT Platform

Prediction-based Fault Detection

Improved operation rate/Reduced O&M cost

Decrease in economic loss

Optimization of operation system

Optimization of Inspection planning

MHPS

Remote monitoring

Improve fault detection model

Operation Data

O&M Solutions Service

Thermal Power Plant Operators (Japan & Overseas)

TeaM Energy Pagbilao Power Station
